National Crime Agency...

...has warned Fortnite is **putting children at risk** from online paedophiles due to the chat facility.

Although the game itself seems pretty harmless, **players can talk and type whatever they want** to each other, and bad language is rampant.

March 2018, a mother from Merseyside told how she intervened when her **12-year-old son was offered £50 to perform "sex acts" while playing the game by a man grooming him online.**

Fortnite game craze is putting children at risk from online paedophiles, NCA warns

The law enforcement agency says review and trust chat between players are the internet cannot be turned off, warning that users need data to ensure their children are chatting to strangers online.

The game, which features up to 100 players battling to be the last person alive in a place to play "Fortnite", is proving hugely popular to UK kids, with many young people said to be disrupting school lessons because they are so addicted.

Now the NCA has intervened to make adults aware of the dangers. A spokesperson said: "Fortnite is immensely popular with children and teenagers across the country. It features voice and text chat which cannot be turned off, so it's important that parents and teachers understand that risks to their children are associated with the game and enable safe playing."

Last month, a mother from Merseyside told how she intervened when her 12-year-old son was offered £50 to perform "sex acts" while playing the game by a man grooming him online.
